**MUSIC IS** a major part of an athlete's life, especially in preparation for a game. Once you have that win, we know how important it is to calm your spirit, prepare for the media room, or spend a day releasing the stress and tension that we all absorb, the **SOLO PIANO GROUP** is just what you need.

**WHO IS THE SOLO PIANO GROUP?** Recognizing a lack of diversity in mood music, industry legend Atron Gregory, responsible for launching the career of Tupac Shakur assembled accomplished pianists from different genres. Their mission is to provide music that will give people off all backgrounds an opportunity to relax, meditate, take a deep breath and live in the moment.

**SOLO PIANO GROUP'S DIFFERENTIATOR** - we are the only entity doing mood music that is owned by African Americans and performed by black pianist. Our recordings feature the highest level of performance and utilize the latest HD technology to provide a sonic experience unlike any other.
